

Title:

How Can an Engine Produce More Horsepower? Part I The Basics

Word Count:

662

Summary:

A "basics" series of articles that deal with how to produce more horsepower from your engine.

Keywords:

autos, automotive, cars, performance, import, domestic, JDM, trucks, combustion, engine, hors

Article Body:

So you have a lead foot (and the tickets to show for it). You want to put the pedal down and h

Let's start with the first part of our friendly Department of Defense taught equation. Literal

At this point after our ^suck~ part of the equation is complete, we move on too the ^squeeze~

I like fireworks, and that is what you have for the third part of our equation, ^bang~. Now we

So we have sucked, squeezed, banged and now we need to blow (you're a pervert). The exhaust va

There you go this is the very basics of how an engine produces power.

If this is still a little confusing to you, well try to envision it as much as possible. Now o
