Inspect Your Shocks And Struts

Article Body:

Most owners know their vehicles require routine maintenance, including periodic inspection of

In addition to causing an uncomfortable ride and poor handling, weak shocks may cause changes

"Shocks and struts are the only devices on your vehicle designed to help reduce up and down mo

ACDelco, a global leader in automotive replacement parts and service, offers the following veh

Q: Is there an obvious sign, like a noise or a jolt, that shock absorbers make when they wear

A: Not really. Shocks wear out gradually, so an incremental loss of handling, control or ride

Q: Which of the following are indications that a vehicle's shocks may need to be replaced?

- a) Vehicle continues to bounce after hitting a road bump
- b) Vehicle may take longer to stop
- c) Vehicle nose-dives when braking
- d) Vehicle ride is shaky or bumpy
- e) Vehicle sways or leans on turns

A: All five are symptoms of worn-out shocks. Because shocks deteriorate slowly, most drivers s

Q: Is there any physical evidence that may indicate a vehicle's shocks need replacing?

A: The two most common physical signs are: 1) cupping of the tires; that is, fairly regular, s
