Word Count:

1326

Summary:

This article will show you how to cut your gas bill right now ~ TODAY ~ if you'll simply pay a

Keywords:

Gasoline, gasoline price, save money

Article Body:

Yes ~ I know that headline might provoke you a little bit.

That's OK.

This article will show you how to cut your gas bill right now ~ TODAY ~ if you'll simply pay a

Of course, you'll probably see a few tips you might have heard before.

Why?

Because they still work, always work, and are even more important now that gas is approaching

In fact, you might have at some point heard most of these tips before now. The real issue is

The average person is probably not doing 1/3 of them. Remember ~ even though some of these ha

OK ~ let's get started ... and these tips are in no particular order ...

1. Get your car tuned ~

Sure ~ everyone tells you to do this. But have you done it? Poor tuning wastes gas. This ca

2. Regularly check the air pressure in your tires ~

Another one you've probably heard before. The fellow who sold me my new tires told me that ti

3. Regularly change your oil ~

Another one you've probably heard. Whatever your manufacturer recommends, pay attention to it

Also try to use synthetic oil. Rarely will your auto manufacturer say not to use synthetic oi

4. Carefully plan your errands ~

This is one tip lots of people miss, and it ties into another tip below. Basically, don't run

Use the phone when you can, instead of driving somewhere. Avoid high~traffic hours, days, and

5. Try to avoid rush hour ~

I'll get some heat on this one. If your employer allows flex time, investigate that. Otherwi

Why?

You can either sit in traffic, get frustrated, use your gas for nothing, and maybe even overhe

6. Always turn right when possible ~

I hadn't thought of this one before I read it somewhere. Consider that when you turn left, you

7. Try to keep your car clean ~

It's more fun to drive when it's clean, and removing all the caked on dirt makes your car `sli

8. Change all your car's fluids ~

Go to a local oil change place and tell them to change every fluid in your car ~ not just your

9. Read popular car magazines for even more tips ~

Most of the popular car magazines offer gas~saving tips these days. Read the front covers and

10. Try to drive downhill ~

As silly as this sounds, when possible drive downhill instead of uphill so gravity powers your

11. Don't race up to stop lights and turns ~

I'm amazed every day as people who blaze past me just in time to slam on their brakes at the r

12. Don't blast off the line ~

Smart people say to act like there is an egg between your foot and the gas pedal. Don't race

13. No lead foot ~

This goes with #12 above. In general, be easy on your gas pedal. Use the least amount of pre

14. Time the red lights ~

Pay attention to traffic lights from as far away as your eyes permit, and try to adjust your a

15. Don't speed ~

For all the reasons you already know, as well as for safety and gas usage, don't speed. Ever.

16. Don't burn your clutch on hills ~

Your clutch is not designed to be your brake. When you burn your clutch on a hill, you trash

17. Don't block intersections ~

This is mostly just decent manners, but you also create a traffic jam for everyone, wasting ev

18. Don't drive 10 miles out of your way to save a penny a gallon ~

Think about this ... if your gas tank holds 12 gallons, is empty, and you drive all over the p

19. Stay in the right (slow) lane ~

To keep the speeders off your tail ~ and keep yourself safer ~ stay in the right (outer) lane

20. Use your imagination ~

If you'll give these tips some thought ~ and put forth a little effort ~ you'll not only cut y

These tips WILL reduce the amount of gas you burn. Period. The rest is up to you. If you wa
