Article Body:

Replacing a vehicle can be a long, tedious process. With so many possibilities available to you

For every dealership you visit, you'll receive many offers. Some will be a better deal than others

Your first step should be to narrow down your search to the top 5 cars you would like to drive

Learn about the warranties for every car. Learn what is covered in the warranties. Take in to

If you listen to the dealerships for information, you'll probably end up dealing with misinformation

Next you should narrow your choices to the top 2 cars on your list, by using all the information

Log onto the internet and google your car. Look for reviews and stories about the cars you are

If the price looks good on your first choice, you should end your car search right there and
