In his recent State of the Union address, President Bush declared that the United States is "ad

Many state lawmakers, impatient with the federal government's slow to non-existent response to

State lawmakers, many from so-called Democratic "blue" states, have started passing regulation

So far, the federal government has been happy to let the state legislatures pick up the slack

While some argue that state regulations will not have an impact nationally on greenhouse gas e

"If we can't get the federal government to act, then we have to take action in any way we can,

Let's just hope all this boils down to better prices for consumers.
