420

Summary:

As many experienced travelers could tell you, a great road trip is often made before you leave

Keywords:

Tech Tips For Summertime Road Trips

Article Body:

As people start to plan their vacations, many are choosing to hit the highway rather than travel

You have a map. You packed your snacks. But have you thought about the tech gear you might need

Satellite Radio

Anyone who's taken a road trip knows the frustration of fumbling with the radio tuner and finding

iPod Accessories

New iPod accessories make it easy to take your favorite playlist on the road. The Digital Life

With the JBL On Tour Portable Speaker, you can take your tunes to the beach, your hotel room or

Digital Cameras

Memories are what matter, so you'll need a good digital camera and photo printer to share them

Another option is the sleek Casio EXZ60, which packs a lot of power into a superslim package.

Portable DVD Players

RadioShack offers a wide variety of portable DVD players, including an all-in-one portable TV/

Portable Navigation

Nothing ruins a road trip faster than getting lost in an unfamiliar city. If you're directional
