Summary:

Tips to maintain the interior of your car and truck

Keywords:

car and truck

Article Body:

Your antique car or truck is a treasure. A treasured possession of history, class, and performance.

Care should be taken in every step of the restoration process to ensure all original materials are preserved.

One especially delicate area is the interior of your antique. Whether the seats are plastic, cloth, or leather,

selecting products that clean and protect in one step saves you time and insures your interior.

It is not unusual to have one specific stain in the interior of a classic car or truck that seems to be impossible to remove.

Once you have completed the restoration process and your antique car or truck is in tip-top condition,

at this point, it is very important to store the vehicle in a climate-controlled environment.

Your antique car or truck has survived many years. A true display of elegance. A few simple steps can help you maintain its
