Word Count:

1078

Summary:

Buying a car will most likely be one of the largest purchases you make in your life and so its

Keywords:

buying a car, vehicles, automobiles

Article Body:

Buying a car will most likely be one of the largest purchases you make in your life and so its

That said, they are also fast becoming an essential possession in the modern world ~ only major

The first item to consider is the method of payment for the vehicle ~ buy to own or lease over

1. How reliable a make of car it is ~ are the parts expensive?

2. How long is the warranty period and how comprehensive is it?

3. How much does the insurance cost?

4. What are the service intervals and how much do they cost?

5. The economy of the vehicle compared with the type and distance of driving you normally do.

6. Style of vehicle ~ do you need a truck or SUV for local/inner city driving? How many passen

7. How long will you want to keep it? (Marriage, kids or relocation?) Don't sign up for expens

8. What is the MRP of the vehicle ~ always look for discount.

9. What is the resale value of the vehicle ~ is the depreciation high?

Methods of Purchasing

1. Buy new ~ This is fast becoming a more affordable method of buying a car and you can either

There seems to be 2 major factors when choosing a new vehicle ~ price over quality. A Japanese

2. Buy used ~ The most likely choice of many of us either through a private sale or a used car

It is a necessity to have the vehicle history checked if you are committing to a private trans

If you buy from a reputable dealer you will pay more for the vehicle but will normally be able

3. Auctions are another method of purchasing which can save you a lot of cash if you are brave

4. Lease ~ This entails a down payment (normally) followed by a monthly payment which will be

Whether you are buying a car - new or used - never pay the ^price~ on show ~ these are heavily
