Article Body:

Before buying a car ~ new or used ~ you should ask yourself why exactly do you need a car. Other

You should try to identify the reasons for buying a car and justifying if they are indeed valid

The following are basic questions and reasons you should consider when making that all important

How They Treat You - Though not always true, when buying cars, you could get many ideas just by

Is The Price Right? - The best time period to buy that car you have always dreamed of having is

Peace of Mind - Sometimes dealers do a song and dance routine just to make that sale. The result

Is The Dealership Trustworthy? - If at any time you feel that the person selling you the car is

The Invoice Price - Another thing to consider when buying a car is the invoice price. Make sure

Incentives - There are instances when manufacturers provide the dealers with a little something

Manufacturer's Suggested Retail Price - This is commonly called the sticker price. This is the

Finally, do not forget that you should always sleep on it and then decide. This is a lot better
