

Title:

You Can Save Money On Car Expenses

Word Count:

475

Summary:

You can save money by trimming back on car expenditures. The following tips can help you achieve

Keywords:

car accessories, car parts, car insurance, oil change, auto parts, floor mats, brake dust shield

Article Body:

Gas prices remain at historically high levels and the long term trend is indicating that they

Look over your insurance. If your car is between two and three thousand dollars, consider canceling

Keep your tires suitably inflated. Your gas mileage will fall if your tires are under inflated

Do not change your oil too often. Unless you drive entirely in the city you do not need to change

Do some minor maintenance yourself. You can change your wipers, the air filter, battery, and more

Use regular gas. If your car requires regular gas, do not indulge in premium. Your car probably

Don't purchase an comprehensive warranty. The amount of money you pay for an extended warranty

You can save plenty of money by washing and waxing your car yourself. Treat yourself to the service

Follow the manufacturer's recommendations. The manufacturer of your vehicle will know how long

Use a private garage. No, you do not have to take your Chevy to the Chevrolet dealership for service

We aren't likely to see gas prices below \$2 per gallon again, while \$3 per gallon may soon be
