

Title:

Your Auto Warranty: What To Look For

Word Count:

382

Summary:

When deciding which car to buy, make sure you check the auto warranty that comes with the vehicle.

Keywords:

auto,warranty, car, vehicle, tips,

Article Body:

When deciding which car to buy, make sure you check the auto warranty that comes with the vehicle.

It's important to understand the different parts of an auto warranty as it is good to know the details.

A typical new car warranty has two parts: the "bumper to bumper" warranty, which covers everything that breaks.

Bumper to Bumper

Few extended vehicle warranty plans cover absolutely everything on a vehicle. Read the warranty carefully.

Wear and Tear

Many extended vehicle warranty plans cover parts that break, just as they cover those that wear out.

An extended auto warranty can be purchased to prolong the coverage of the bumper-to-bumper warranty.

By looking carefully at your auto warranty before you buy, you will save yourself much potential money.
