Introduction

Writing skills are essential for succeeding in high school, college, and at a job. Writing is

When developing a topic, one should look for patterns and relationships, try to draw conclusions

How to get Started

The first step towards writing a quality research paper is to organize what is to be written.

-The Introduction

-The Body

-The Conclusion

The introduction should give the reader an idea of the essay's or paper's intent, including a brief

These are the steps to be followed before writing any kind of paper or essay. After these basic

College courses demand many different kinds of writing that employ a variety of strategies for

The whole writing process is divided into three steps namely prewriting, writing, and rewriting

-Prewriting: In the prewriting phase one ponders over the questions like what he has to write

-Writing: In this phase the plan is implemented by working out the details and fine-tuning the

-Rewriting: In the phase of rewriting or revising, the material or paper written is reviewed a

During these steps, there are some phases, which also take place before the final draft of the

Another important factor is looking at the topic from a multiple perspective, when a topic is

Doing exploratory research is included here with the prewriting techniques because library res

The final draft is what we hand in as the completed paper. Before turning in the final draft,
